## Personal Security Awareness in Hostile Situations

***“not everything you see is in black and white.”***

Following the horrific terrorist atrocities that have occurred in parts of Europe and on a global scale, Orchid Risk Management provides a bespoke Security Awareness course for sustained resilience to multi national corporations who engage in overseas business and consider a duty of care to their personnel.

This training is aimed at people who travel or who live and work in places that run the risk of becoming victims of ‘Active shooters’ or Terrorist attack. We deliver ‘run-hide-tell’ training in urban survival including quite simple to complex tips and techniques on Hotel security, travel security, by car and taxi, trains and airports. Straightforward information on ballistics that can help people in deciding how to be safe and seek safe hard-cover by understanding the effects of gunshot and explosions. We include Basic Life Support that will keep yourself or others alive during the ‘Golden Hour.’

Our instructors have first hand, extensive, current and relevant experience across all aspects of all subjects.

***Our focus group is considered to suit but is not limited to:***

The Oil & Gas Industry; Airlines and Shipping Industries;  
International Hotels and Venues; Financial Institutes and  
Charities
